PUBLICACIONES 2009

1. Deroin, Bertrand; Kleptsyn, Victor; Navas, Andrés On the question of ergodicity for minimal group actions on the circle. Mosc. Math. J. 9 (2009), no. 2, 263–303, back matter.

2. Navas, Andrés; Rivas, Cristóbal A new characterization of Conrad's property for group orderings, with applications. With an appendix by Adam Clay. Algebr. Geom. Topol. 9 (2009), no. 4, 2079–2100.

3. Henríquez, Hernán R.; Lizama, Carlos Compact almost automorphic solutions to integral equations with infinite delay. Nonlinear Anal. 71 (2009), no. 12, 6029–6037.

4. Cuevas, Claudio; Lizama, Carlos Almost automorphic solutions to integral equations on the line. Semigroup Forum 79 (2009), no. 3, 461–472.

5. Keyantuo, Valentin; Lizama, Carlos; Miana, Pedro J. Algebra homomorphisms defined via convoluted semigroups and cosine functions. J. Funct. Anal. 257 (2009), no. 11, 3454–3487.

6. Cuevas, Claudio; Lizama, Carlos Well posedness for a class of flexible structure in Hölder spaces. Math. Probl. Eng. 2009, Art. ID 358329, 13 pp.

7. Araya, Daniela; Castro, Rodrigo; Lizama, Carlos Almost automorphic solutions of difference equations. Adv. Difference Equ. 2009, Art. ID 591380, 15 pp.

8. Lizama, Carlos; Prado, Humberto On duality and spectral properties of (a,k) -regularized resolvents. Proc. Roy. Soc. Edinburgh Sect. A 139 (2009), no. 3, 505–517.

9. Castro, Airton; Cuevas, Claudio; Lizama, Carlos Maximal regularity of the discrete harmonic oscillator equation. Adv. Difference Equ. 2009, Art. ID 290625, 14 pp.

10. Keyantuo, Valentin; Lizama, Carlos; Poblete, Verónica Periodic solutions of integro-differential equations in vector-valued function spaces. J. Differential Equations 246 (2009), no. 3, 1007–1037.

11. Karczewska, Anna; Lizama, Carlos Strong solutions to stochastic Volterra equations. J. Math. Anal. Appl. 349 (2009), no. 2, 301–310.

12. Cortázar, Carmen; García-Huidobro, Marta; Yarur, Cecilia S. On the uniqueness of the second bound state solution of a semilinear equation. Ann. Inst. H. Poincaré Anal. Non Linéaire 26 (2009), no. 6, 2091–2110.

13. García-Huidobro, Marta; Yarur, Cecilia S. On semilinear elliptic problems involving critical exponents. Nonlinear Anal. 70 (2009), no. 8, 2953–2964.

14. Reyes, Enrique G. Integrability of differential equations and algorithmic undecidability. Advances in mathematics research. Vol. 9, 133–155, Adv. Math. Res., 9, Nova Sci. Publ., New York, 2009.
15. Hernández-Heredero, Rafael; Reyes, Enrique G. Nonlocal symmetries and a Darboux transformation for the Camassa-Holm equation. J. Phys. A 42 (2009), no. 18, 182002, 9 pp.
16. Henríquez, Hernán R. Asymptotically almost periodic solutions of abstract retarded functional differential equations of second order. Z. Angew. Math. Phys. 60 (2009), no. 5, 797–822.
17. Hernández M., Eduardo; Henríquez, Hernán R. Existence results for second order differential equations with nonlocal conditions in Banach spaces. Funkcial. Ekvac. 52 (2009), no. 1, 113–137.
18. Hernández M, Eduardo; Henríquez, Hernán R.; dos Santos, José Paulo C. Existence results for abstract partial neutral integro-differential equation with unbounded delay. Electron. J. Qual. Theory Differ. Equ. 2009, No. 29, 23 pp.
19. Henríquez, Hernán R. Asymptotically almost periodic solutions of abstract retarded functional differential equations of first order. Nonlinear Anal. Real World Appl. 10 (2009), no. 4, 2441–2454.
20. Hernández Morales, Eduardo; McKibben, Mark A.; Henríquez, Hernán R. Existence results for partial neutral functional differential equations with state-dependent delay. Math. Comput. Modelling 49 (2009), no. 5-6, 1260–1267.
21. Hernández M., Eduardo; Henríquez, Hernán R.; McKibben, Mark A. Existence results for abstract impulsive second-order neutral functional differential equations. Nonlinear Anal. 70 (2009), no. 7, 2736–2751.
22. Henriquez, Hernan R. Generalized solutions for the abstract singular Cauchy problem. Commun. Pure Appl. Anal. 8 (2009), no. 3, 955–976.
23. Henríquez, Hernán R.; Landero H., Carlos A generation result for cosine functions of operators. Z. Anal. Anwend. 28 (2009), no. 1, 103–118.
24. Henríquez, Hernán R.; Hernández M, Eduardo Approximate controllability of second-order distributed implicit functional systems. Nonlinear Anal. 70 (2009), no. 2, 1023–1039.
25. de Paiva, Francisco Odair; Ramos Quoirin, Humberto Resonance and nonresonance for p-Laplacian problems with weighted eigenvalues conditions. Discrete Contin. Dyn. Syst. 25 (2009), no. 4, 1219–1227.
26. Cuesta, Mabel; Ramos Quoirin, Humberto A weighted eigenvalue problem for the p-Laplacian plus a potential. NoDEA Nonlinear Differential Equations Appl. 16 (2009), no. 4, 469–491.

27. Dávila, Juan; Flores, Isabel; Guerra, Ignacio Multiplicity of solutions for a fourth order problem with exponential nonlinearity. J. Differential Equations 247 (2009), no. 11, 3136–3162.

28. Cerda, Patricio; Ubilla, Pedro Positive solutions of a nonlinear Sturm-Liouville boundary-value problem. Proc. Edinb. Math. Soc. (2) 52 (2009), no. 3, 561–568.

29. De Figueiredo, Djairo G.; Sánchez, Justino; Ubilla, Pedro Quasilinear equations with dependence on the gradient. Nonlinear Anal. 71 (2009), no. 10, 4862–4868.

30. de Figueiredo, Djairo G.; Gossez, Jean-Pierre; Ubilla, Pedro Local "superlinearity'' and "sublinearity'' for the p-Laplacian. J. Funct. Anal. 257 (2009), no. 3, 721–752.

31. Ruf, Bernhard; Ubilla, Pedro On a Liouville-type equation with sign-changing weight. Proc. Roy. Soc. Edinburgh Sect. A 139 (2009), no. 1, 183–192.

32. Lorca, Sebastián; Ruf, Bernhard; Ubilla, Pedro A priori bounds for superlinear problems involving the N-Laplacian. J. Differential Equations 246 (2009), no. 5, 2039–2054.

33. Labarca, Rafael; Pumariño, Antonio; Rodríguez, José Angel On the boundary of topological chaos for the Milnor-Thurston world. Commun. Contemp. Math. 11 (2009), no. 6, 1049–1066.

34. Amat, S.; Bermúdez, C.; Busquier, S.; Leauthier, P.; Plaza, S. On the dynamics of some Newton's type iterative functions. Int. J. Comput. Math. 86 (2009), no. 4, 631–639.

35. Espinoza, Lorena; Barbé, Joaquín Barbé; Gálvez, Grecia A study of didactics phenomena related to arithmetic teaching in Chilean primary school. Enseñanza de las Ciencias 27 (2009), no. 2, 157-168.
